SKILLS

- **Frontend:** React, React-Native, Next.js, TypeScript, Redux, HTML5, CSS3
- **Backend:** Node.js, Express, MongoDB
- **Tools & Platforms:** Git, Expo, GitHub, Vite, Postman, Figma
- **Other:** Web3 basics, Agile methodologies, RESTful APIs

LANGUAGES

- English (Fluent)
- Spanish

REFERENCE

Available upon request

PROFILE

Enthusiastic Full-Stack JavaScript Developer proficient in React, React Native, TypeScript, Node.js, MongoDB, and other technologies. Skilled in building responsive web and mobile applications and collaborating with global teams.

WORK EXPERIENCE

National Information Technology Development Agency (NITDA)

APR 2023 – OCT 2023

Intern, Cybersecurity Department

- Completed professional training courses and earned certifications in cybersecurity and industrial control systems.
- Worked under the Cybersecurity Department on vulnerability assessments and security best practices.
- Attended specialized classes on prompt engineering using Python, and contributed to internal knowledge-sharing sessions.

FarmyApp (Remote)

JAN 2025 – MAR 2025

Mobile App Developer

- Collaborated with a distributed team to recreate designs from Figma for a farm-produce e-commerce web application and companion mobile app.
- Implemented responsive UI components in React and React Native, managing state with Redux.
- Integrated RESTful endpoints using Postman for testing and ensured pixel-perfect fidelity to design.

10th GEN (Remote)

MAR 2025 – MAY 2025

Frontend Developer

- Began development of a Web3-enabled application portal, focusing on frontend features with TypeScript and React.
- Utilized Node.js, Postman for API interactions, and Figma for design handoff.
- Collaborated with stakeholders to translate design requirements into user-centric frontend features, enhancing usability and performance.

EDUCATION

BSc Computer Science

Veritas University Abuja

2020-2024
